Index January-December 1982

Accounting

A case history: Reducing the costs of hospital-based dialysis, **Nov 56**
A seven-step guide for hospitals: Getting through a debt rating, **Apr 58**
Diagnosing Medicare bad-debt policies, **Mar 36**
Growing in importance: Managing ambulatory receivables, **Mar 47**
Objective, efficient, effective: Selecting a collection agency by the RFP approach, **Mar 42**
Pharmaceutical scam: Use audit to detect 'Pyramid Cube Scheme,' **Sept 72**
Reporting on debt financing: Accounting for indentured funds, **Apr 55**
The St. Joseph's experience: Reducing backlogs with contract billers, **Jan 60**
To reduce costs: Hospitals must identify and control fixed and variable costs, **Mar 50**
Using re-order points: ROP discussion helps EOQ article, **Feb 61**

Administration

Certain tax changes due to: Tax Equity and Fiscal Responsibility Act of 1982, **Nov 48**
Incentive program for administrators: Adopting big business attitudes in health care, **May 50**
Is deregulation the answer? Winning the new competitive game in health care, **Dec 46**
Reductions in hospital capacity: Physician behavior and the administrator's challenge, **Feb 14**
Some caveats: Constraints and risks of corporate reorganization, **Sept 26**
115 hospitals studied: Survey reveals trends in corporate reorganization, **Sept 38**

Antitrust

Arizona v. Maricopa County: A stern antitrust warning to healthcare providers, **Oct 38**
Implications of the Pireno decision, **Oct 40**
New forms of competition: Responding to the organizational revolution, **Oct 12**
The antitrust swamp: How can healthcare professionals avoid it?, **Oct 12**

Budgeting

FAS subscribers surveyed: Hospitals increase use of capital budgeting process, **June 70**
The pyramid approach: Increasing the usefulness of flexible budgeting, **Feb 30**

Capital formation

A growing concern: Hospitals and the unrelated business tax, **Nov 38**
Bond market forecasting: What can hospitals expect in 1982 financial market?, **Jan 34**
Corporate restructuring works for California hospital, **Sept 12**
Effect on tax exemption: Federal income tax consequences of medical office buildings, **Nov 12**
Forecasting capital requirements: Potential trends in capital investment during the 1980's, **Aug 52**
For timely decision making: A capital equipment acquisition process, **Apr 12**
Healthcare survival: Competition: How will it affect hospitals? **Nov 64**
In the beginning and some conclusions, **Oct 58**
Preserving capital: Asset choice and program selection in a competitive environment, (Part 1), **July 40**
Preserving capital: Asset choice and program selection in a competitive environment (Part 2), **Aug 34**

Computer systems

A case study: Materiel management subsystem grows with Deaconess Hospital, **Sept 64**
Analyzing alternatives: Turnkey system meets hospital's tough requirements, **June 38**
Closing the theory/application gap: Computer modeling helps decision maker, **June 10**
Computerized billing: Using automated systems for hospital-based physician services, **June 30**
Computerized financial modeling: A way to improve a hospital's economic position, **Feb 40**
Computerized inventory control: Material requirements planning in the surgical suite, **June 64**
Hospital information systems: Approaching the cost justification problem, **June 48**
Using time/access systems: Computers simplify payroll complications, **June 24**
Visual aid for CFO's: Computer graphics improve presentations, **June 58**

General issues

Constitution, bylaws, **July 56**
Cut losses at reasonable cost: Improving parking lot revenue control, **Jan 45**
Federal employees health insurance: Largest competitive health program faces a crisis, **Mar 18**
HFMA and its Principles and Practices Board, Statement No. 4, **June 80**
Materiel management subsystem grows with Deaconess Hospital, **Sept 64**
More work needed: DRGs—a progress report from the provider viewpoint, **Jan 48**
Omnibus Reconciliation Act of 1981: New regulations expected to increase cost shifting, **Mar 56**
Organizational cultures: Sensitive managers can improve the work environment, **Mar 12**
Post-interview comments: Why health planning?, **Aug 28**
Preparing for change: Seven positive approaches to increased competition, **Dec 80**
The future of health planning, (Part 1), **Aug 10**
Using big business tactics: Hospital debt capacity in a competitive environment, **July 26**

Management information systems

Analyzing alternatives: Turnkey system meets hospital's tough requirements, **June 38**
Closing the theory/application gap: Computer modeling helps decision makers, **June 10**
Computerized billing: Using automated systems for hospital-based physician services, **June 30**
Computerized financial modeling: A way to improve a hospital's economic position, **Feb 40**
Computerized inventory control: Material requirements planning in the surgical suite, **June 64**
Hospital information systems: Approaching the cost justification problem, **June 48**
Using time access systems: Computers simplify payroll complications, **June 24**
Visual aid for CFO's: Computer graphics improve presentations, **June 58**

Management issues

An update on current trends and problems: The financial manager's guide to risk management, **Apr 64**
Cutting usage and costs: How chief financial officers can conserve energy resources, **Jan 64**
Executive compensation: Tax considerations should be part of income package, **Nov 44**
Healthcare awareness: Consumer attitudes increase buyer sophistication, **Dec 76**
Hospital feasibility studies: Are they valuable management tools or required nuisances?, **Oct 50**
Healthcare productivity: Operations analysis is the first step in planning, **Feb 57**
Other programs compared: Updating the controversial Social Security option, **Nov 22**

Patient accounting

A modified time study: Measuring medical records production, **May 54**
Brookwood Medical Inn: A new kind of hospital bed reduces patient costs, **Dec 82**
Effective, inexpensive: Collecting receivables by telephone, **Nov 52**
Patient accounts post-mortem: A procedure to reduce bad debts, **Oct 72**

Payment methodologies

AHA proposes prospective rate setting, **Aug 72**
Pricing hospital services—another milestone, **Aug 68**

Rate setting

A holistic approach: Recognizing emergency department price components, **Dec 12**
Competition in rural areas: Consider price and nonprice competitive elements, **Dec 39**
HFM interview: William A. Guy: California charts a new competitive course, **Dec 60**

Reimbursement

An overview: The PRRB: It can still achieve its purpose, **Apr 72**
An update from HCFA: Effects of Medicare, Medicaid on community hospitals, **July 36**
Back to basics: Preparing the Medicare report, **Aug 60**
Few gifts for reimbursable expenses, **Feb 26**
Health care without borders: Canadian Medicare at work with Maine hospital, **Feb 49**
Hospital's perspective: Viewing the future of Medicare, **Jan 31**
New financial relationships: Medicare vouchers, the concept and the issues, **Jan 12**
New funding resources: Cultivating long-range philanthropy, **Feb 24**
Reimbursement aids: Maintaining Medicare and Medicaid log, **Mar 35**
Voluntary Medicare option—what it proposes, **Jan 16**

Tax-exempt revenue bonds

Check IRS guidelines: Healthcare contracts can affect tax-exempt financing, **Aug 64**
Congressional threat? Tax-exempt hospital bonds: Key questions and answers, **Apr 42**
Generating revenue: Why tax-exempt hospitals need profit, **Sept 46**
Record rates continue in the first half of 1982, **Oct 44**
Record rates set tone for bond market in 1981, **Apr 36**
Results of study: Uses and effects of hospital tax-exempt financing, **July 10**

Word processing systems

A case study: Word processing cuts transcription costs, **May 16**

Index January-December 1982
